Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Product name	Mini Future Short Warrant Linked to a Foreign Exchange Rate
Product identifiers	ISIN: DE000NG3L1U4 WKN: NG3L1U
PRIIP manufacturer	ING Bank N.V. (the issuer), Bijlmerdreef 106, 1102 CT, Amsterdam, The Netherlands (www.ingmarkets.com / +31 (0) 20 228 8888)
Competent authority of the PRIIP manufacturer	Netherlands Authority for the Financial Markets (AFM)
Date and time of production	3 May 2024 06:03 Frankfurt am Main local time

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Туре	Dutch law governe	d warrants			
Term	The product does r	not have a fixed term, subject to exercise	by the investor or termination	n by the issuer.	
Objectives (Terms that appear in bold in this section are described in more detail in the table(s)	The product is designed to provide a return in the form of a cash payment following exercise by you or termination by us that will depend on the performance of the underlying . The product has no fixed term. The product may terminate at any time as described below. If, upon termination of the product, the underlying has risen to or above the knock-out level , the product will return less than your initial investment or even the minimum payment amount of EUR 0.001, which means you will effectively lose your initial investment.				
below.)	receive following e	everage: The product offers leveraged exposure to the performance of the underlying . This means that the payment you eceive following exercise by you or termination by us increases on a magnified basis as the performance of the underlying ecreases, but you also bear a greater loss if the underlying performs positively.			
	Automatic early termination: If the level of the underlying at any time during the term of the product is at or above the knock-out level , the product will terminate immediately and you will receive a cash amount equal to (A) (1) the current financing level minus (2) a level for the underlying based on the levels at which we are able to unwind our hedging positions immediately following any such event, multiplied by (B) the entitlement , and converted into EUR at the FX rate , subject to a minimum of EUR 0.001.				
	Exercise by you or termination by us: You may exercise the product on certain dates and subject to the notice periods set out in the product terms (see "7. Other Relevant Information" below for more information on where you can obtain the product terms). We may also terminate the product on certain dates and subject to the notice periods set out in the product terms. The exercise or termination, as the case may be, will be effective after the period of time indicated in the product terms.				
	If the product has not automatically terminated early, you will in both cases on the settlement date receive a cash amount equal to (1) (A) the current financing level on the valuation date minus (B) the reference level on such date multiplied by (2) the entitlement , and converted into EUR at the FX rate , subject to a minimum of EUR 0.001.				
	Following the issuance of the product, the knock-out level and the current financing level will be adjusted for current market conditions and a fee. Updated information on the levels of such components will be available from the issuer and will be published on www.ingmarkets.de.				
	Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.				
	The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the issuer may terminate the product early. These events are specified in the product terms and principally relate to the underlying , the product and the issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.				
	Direction	Short	Current financing leve	As of 3 May 2024 00:20: USD 1.17391 per EUR 1

What you might get back after costs

What you might get back after costs

What you might get back after costs

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the reference asset's past performance over a period of up to 5 years. The stress scenario shows what

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Percentage return (not annualised)

Percentage return (not annualised)

Percentage return (not annualised)

You are exposed to the risk that the issuer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not covered by any deposit protection scheme.

4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- You would get back the amount that you invested (0% return).
- EUR 10,000 is invested

	If you exit after 1 day		
Total costs	EUR 79		
Cost impact*	0.79%		

*This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

	One-off costs upon entry or exit	lf you exit after 1 day
Entry costs	0.35% of the amount you pay when entering this investment. These costs are already included in the price you pay.	EUR 35
Exit costs	0.35% of your investment before it is paid out to you.	EUR 35
	Ongoing costs	
Management fees and other administrative or operating costs	0.09% of your investment amount in respect of the recommended holding period. This is an estimate of the actual costs.	EUR 9

5. How long should I hold it and can I take money out early?

Recommended holding period: 1 day

Sudden changes in the value of the product can occur frequently, accordingly the recommended holding period is 1 day or less. The value of the product should be monitored constantly.

The product reacts due to its leverage to small price movements of the underlying leading to potential profits or losses within unpredictable timeframes.

The product does not guarantee the possibility to disinvest other than by selling the product through the exchange. Save as otherwise disclosed in exit costs (see section "4. What are the costs?" above), no fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable.

In addition to selling the product through the exchange if the product is listed or off-exchange you may exercise the product on specific dates by the giving of an exercise notice to the manufacturer. If applicable, details regarding the delivery of an exercise notice and the amount you will receive on such early exercise are described in more detail under "1. What is this product?" above.

Exchange listing	Bloomberg	Price quotation	Units
Smallest tradable unit	1 unit		

In volatile or unusual market conditions, or in the event of technical failures, the purchase and / or sale of the product may be temporarily or permanently impossible.

6. How can I complain?

If you are not satisfied with the product you may follow our complaint procedure which is available on www.ingmarkets.com. A complaint can be filed via (i) e-mail: ing-financial-markets-complaints@ing.com or (ii) postal address: Bijlmerdreef 106, 1102 CT, Amsterdam, The Netherlands.

7. Other relevant information

A prospectus is available for this Product. For full information about the Product and associated risks please refer to the prospectus. The prospectus consists of a securities note, registration document, final terms, and all documents incorporated by reference, which can all be obtained from www.ingmarkets.de. The investor should base its investment decision on the prospectus and should seek independent financial advice if necessary.
